

I drive a truck and the information I get from XM radio is very benificairy to me and I pay for the service of XM radio. It also provides me with a constant signal. It should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support the XM's ability to provide the kind of programming that I demand and deserve.

Respectfully

Gary Rothrock
